

Manufacturers of Pipeline & Welding Equipment Since 1948

GUARANTEE & WARRANTY

Sawyer Guarantee

Sawyer Manufacturing Company and our employees stand behind the products we build. We guaranty our equipment to be free of defects from workmanship or materials for twelve months from delivery. Electrical components are covered for three months. This guarantee is limited to the repair or replacement of parts found to be defective and no other liability, expressed, implied or contingent is assumed. Sawyer will replace or repair the equipment at their discretion.

Limited Lifetime Warranty

Sawyer also offers the industry's first Limited Lifetime Warranty. All beveling machines carry this limited lifetime warranty. Sawyer will inspect and calibrate any Sawyer beveling machine for as long as you own the machine. This warranty is non-transferrable and excludes parts and labor outside of the inspection and calibration process.

You can proudly purchase the Sawyer brand knowing it won't let you down.

Proof of purchase required.
