

End Cap

Model 290

OVERVIEW

Sawyer Mfg.'s End Caps are engineered to provide robust protection for large-diameter pipes during storage, handling, and transportation. Crafted from durable carbon steel, these caps are designed to shield the beveled ends of pipes, ensuring they remain free from damage and contamination. Ideal for various industrial applications, Sawyer's End Caps help maintain the integrity of pipes by preventing the ingress of dirt, debris, and moisture.

FEATURES AND BENEFITS

- Available in nominal sizes 16", 20", 24", 30", 36", 42"
- Made from Carbon Steel
- Protects the bevel ends of pipe
- Keeps pipe insides clean from debris, dirt etc
- Easy installation and removal.
