

Spider Clamp

Model 400

OVERVIEW

The Spider Clamp – Series 400 provides fast, accurate internal alignment of flanges, fittings, and short pipe sections. Featuring dual independently expanding clamps and a precision centering shaft, it ensures true, repeatable fit-ups for pipes from 2" to 36". Built from stainless steel for strength and corrosion resistance, this lightweight, durable clamp delivers dependable performance in both shop and field environments.

FEATURES AND BENEFITS

- 5 Clamps for pipe sizes ranging from 2" - 36"
- Dual expanding clamps for precise internal alignment
- Independent adjustment for differing pipe diameters
- Stainless steel construction for durability and corrosion resistance
- Full 360° weld access with no external obstructions
- Lightweight, easy-to-use design for shop or field work
