

Roller Head Pipe Stand

Model 455-RH

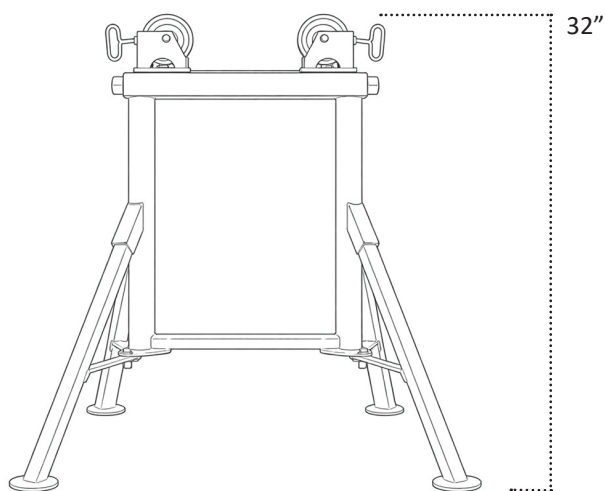

OVERVIEW

Sawyer's Roller Head Pipe Stand is designed for medium to heavy pipe fabrication, providing stable roller support for pipe handling, fit-up, and welding operations. Its rigid steel frame and wide footprint deliver dependable stability in shop and jobsite environments.

FEATURES AND BENEFITS

- Supports pipe up to 36" in diameter
- 2500 lb. (1135 kg.) load capacity
- Roller head height of 32"
- Heavy-duty roller head for smooth pipe rotation
- Self-centering adjustments
- T-handle brake for controlled pipe movement
- Wide footprint for increased stability

DIMENSIONS

Model No.

455-RH
